

MY IRLLEN TRIBUTE

I'm thrilled to tell you how The Irlen Method revolutionized my life!

With my chosen overlay I could easily keep reading on the correct line, comprehending more with no eyestrain. Once I got my Irlen Coloured Filters, I enjoyed the sun without squinting or wearing a hat and dark sunglasses. And I could last in a super noisy, busy, garishly-lit mall for several hours without any nasty symptoms. No more overwhelm!

I then had the great privilege of becoming an Irlen Screener under the expert tutelage of Bonnie Williams. What a joy and honour to help other afflicted clients experience great benefits from their patented overlays, and move some of them on to filters as well! For 9 years, as I was mentored by Bonnie and then Donna Bouvette, I consistently saw life-changing results. I cannot recommend The Irlen Method enough.
